Table of contents

Use case 24.1: Logged , social profile

3

Use case 24.1: Logged , social profile

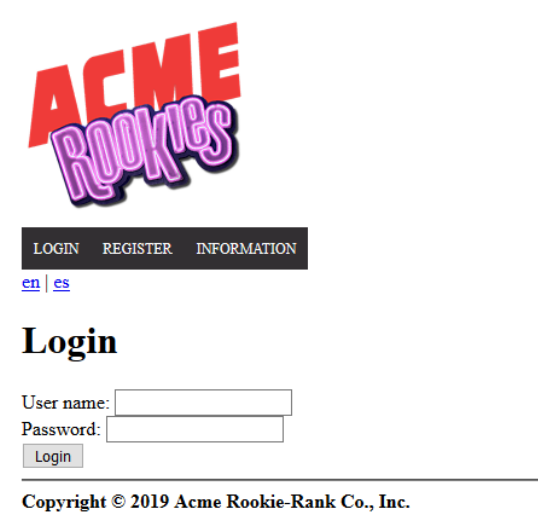

Description

Manage his or her social profiles, which includes listing, showing, creating, updating, and deleting them.

Access

First, the user must log in the login page. User: company, Password: company

The steps to follow are explained down.

Go to the section of user profile.

> Header Menu > Display the "PROFILE" options > List of social profiles

The list of social profiles should appear. The list is empty because there aren't social profiles in the populate.
